

I'm [REDACTED]. I don't like to write anything to you. because I don't believe in you, in noan of you. you're nothing but a cult of racist, liars who's aim is to kill the peoples even childrens in Nauru. Nauru is hell and you know everything about it. don't pretend that you don't! You know and you orgnized all that eruel, panic and brata lity. you don't believe in god but he believes in you and return your favours. I'm sure. god never help the people who are cruel and like the people who help the mankid. just imagin we swap places for a minute. I would you ~~interest~~ feel then? imagine you children were in our children circumstances. were you happy? I don't undrestand why you hate us? unfortuantly you hate us while we like you! we werent bad with you. never fired you houses. never did anything bad with you. but look what you have done with us. why? why? we fled from cruelty in our countries but you did something worst in million time with us. the last word is that "you have to help us".
