In The Name Of God

Hi,

To: Human Rights Commission Visitors

I am [REDACTED] and My Mother is [REDACTED]
[REDACTED] and my younger brother is [REDACTED]

We arrived Christmas Island at 24 July of 2013 and We are here for one year without any good food, medical and education facilities. My mother has had rheumatism arthritis for about 4 months here and medical here sent her after 40 day suffering in very bad pain for treatment when I spoke with her doctor he told me It is because of the very high humidity here on Christmas Island but they sent back her here again in this humid weather and again they sent her 2 week ago without my brother and I but she needs help to do her daily chores and I wrote complaint that why you sent her alone but...

|| We have a lot of problem here how many do you want to tell you?

I was Medical engineer in Iran but now I am nothing and I can't concentrate on my works at all.

Our worst problem is my mother's illness and education of my brother and to see unhappy faces of people of here and to don't separate my mother from us. We know that Australia doesn't want us ok It is no problem but please make happy all of us with another things that you know for example: good Medical but I am very hopeless about this [REDACTED] that I can't feel good any more.

Thank you.
