In The name of God

Hi.

To : Human Rights Commission Visitors

I am [REDACTED] and My Mother is [REDACTED]

[REDACTED] and My younger brother is [REDACTED]

We arrived Christmas Island at [REDACTED] July of 2013 and we are here for one year without any good food, Medical and education facilities.

My Mother has had rhumatism arthritis for about 4 months here and Medical here sent her after 40 days suffering in very bad pain for treatment and when I spoke with her Doctor, he told me It is because of the very high humidity here on Christmas Island but they sent back her 2 weeks ago without my brother and I and she is alone now and she needs help to do her daily chores and I wrote complaint why did you send her alone but I didn't get the answer until now.

We have a lot of problems here that if you want to say you I think It takes long time.

I was studying medical engineering in Iran but now I am nothing and I fell that I can't be useful anymore and I don't know why I can't concentrate in my daily chores.

My worst problems are My Mother's illness and education of my brother and to see unhappy faces of people of here and to don't separate My mother from us. We know that Australia doesn't want us, ok It is not our problem but please make happy all of us with another things that you know for example : To be together the familys and good treatment for everyone but I am very hopeless about this please bring hope here for everyone.

Thank You.
