To:ageanddisability humanrightscom <ageanddisabilityenquiry@humanrights.gov.au>;

From 1st July 2015 I was approved by the Dept of Employment for assistance to gain employ under the Job Active assistance package and within the guidelines of the VOLUNTARY JOB SEEKERS (aged). I have since been REFUSED assistance by 2 Job Active Providers stating that they 'Do not DO AGED, although Disabled we can.' and 'It is beyond our ETHOS to assist you' along with several other ladies of mature age. My presently connected Job Active stated a PROBLEM WITH THEIR COMPUTERS AT MY FIRST INTERVIEW 27th October 2015 and has NOT PROVIDED ANY ASSISTANCE AT ALL SINCE THEN, SO FAR. I was in fact advised by the [REDACTED] [REDACTED] Complaints line that I had an interview with [REDACTED] who turned out to be the receptionist, gave me an email address that would NOT BE ACCEPTED and a Consultant (without his own printed card) and who conducted the interview loudly in the PUBLIC FOYER in front of an avidly interested female who was asked to wait until I was finished with and then left just before I did. I now have been given a SECOND APPOINTMENT for THE FIRST INTERVIEW and out conversation AGAIN was me left outside the office in the foyer and being told NOT to come into the office???

Apparently THE FUNDING MODEL IS EXACTLY THE SAME for ALL VOLUNTARY JOB SEEKER CATEGORIES and there appears to be NO ASSISTANCE AVAILABLE. I have not even been offered the use of a computer although the Consultant was delighted to take my typed list of job applications for the previous fortnight and that week to date.

Apparently the CLIENT has to take up any complaint matter PERSONALLY with the major organisations running the job active subcontractor roles and the GOVERNMENT actually has NO CONTROL OVER THEIR ACTIVITIES?

Please pass my new experience on to those collecting the data.

Thank you.
