Re: one of the refugees.

Hello,

I want to tell you about my life in Nauru but please do not get bored when you are reading.

Our tents: are dirty and it's become flooded when the rain begins, after that the tents have leaks and holes.

Toilets and showers: The toilets are very dirty and it's become filthy when we don't have water in the camp, and sometimes we don't have water to wash our clothes and we do not have water to have showers.

Health: So many people have problems with health from living in the detention centre. The mental health of the people on the detention is not well because it's affect the people's mind and the children too, they have 10 months on the detention that means they are get crazier and upset.

Also the families can't control themselves because of the situation on here such as high temperature (50°C), and the

$\frac{2}{2}$

boat no:

rights by refugees or security.

Education: I have 11 months at the detention centre. I lost 2 years from my education because I'm here. You know I'm Syrian, my country has wars that's why I'm here. If my country was good I don't need Australia or America... I hope to go to university to be an engineer. I can't study because I am here. We need computers, access and internet.

Thank you for reading my letter.
